

Global Window Films

A world apart. Beyond the cutting edge.

There is not a single window film company in the world like Global Window Films.

From polymers to packaged goods, Global is the only window film company in the world that builds it's own films starting at the molecular level. Many other so called "manufacturers" are really just converters that outsource all their raw materials.

Comparison Table of Manufacturer Capabilities:

	Global	Llumar/CP	Solar-Gard	Madico	3M	Johnson	Sun-Gard	Sun-Tek
Produce DMT from petroleum distillates	Yes	-	-	-	-	-	-	-
Produce chips from DMT	Yes	-	-	-	-	-	-	-
Produce polyester films directly from chips	Yes	-	-	-	-	-	-	-
Produce silicone liner material	Yes	Yes	-	-	-	-	-	-
Dyeing of polyester films	Yes	Yes	-	-	-	-	-	-
Metalizing of polyester films	Yes	Yes	Yes	Yes	-	-	-	-
Publicly Owned Company	Yes	Yes	Yes	Yes	Yes	-	-	-
Coating & laminating	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Converting & packaging	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes

In today's challenging business climate, you might be thinking about replacing your current supplier altogether or simply adding a second line to offer to your customers. No matter which situation you may be in, Global Window Films is a wise choice to consider. We offer lifetime warranty, color stable automotive films and lifetime residential films up to 72" wide.

We think you will also be pleased with the level of service we provide at our east and west coast distribution centers. Our company has served the needs of professional window film distributors since 1984. We have 11 full time staff members, 11,400 square feet of warehouse space and more than 2 million square feet of film in stock at all times.

No matter how small or large your account is, we will treat you like our best customer. We can accept your orders via phone, fax or on our website. We offer free freight on all fax-in or on-line orders over \$500.00. We have a full selection of Silver Reflective and Clear Safety Films. Blackout, Whiteout and Frost Matte Films are also in stock at all times.

If the time has come for you to consider giving Global a chance, then give us a call today. Ask about our 100% satisfaction guarantee. Learn why Global has been the best kept secret in the industry. Try Global today.

Respectfully,

Howard Paritsky, President
Global/Express Window Films

Special Instructions / Requests / Address Changes:

Quantity	Window Film Type – VLT (Darkness)	Width	Length

Quantity	Code	Tool / Accessory Description

GT042 8" Silver Security Squeegee
Comfortable, ergonomic handle is designed especially for security film installation. Advanced curved handle applies more pressure to surface, reducing fatigue and ensuring easier, better installations. Blade is replaceable with either the Security Squeegee (GT041), Flatfoot (GT059) or Pro Squeegee (GT061) blades.

GT041 8" Silver Security Squeegee
Replacement Blade

GT059 8" Flatfoot Squeegee Blade
Flatfoots are specially angled blades for the 8" Pro Squeegee (GT064). The angle is designed to maximize the surface area in contact with the film, thereby removing much more mounting solution than a standard Pro blade with a square edge.

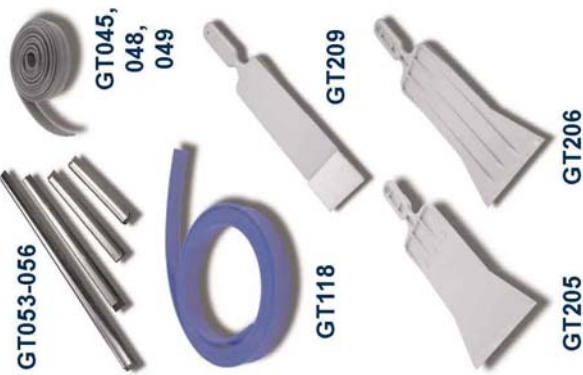

GT061 8" Pro Squeegee Blade
Replacement blade to 8" Pro Squeegee (GT064) used as a means of removing application solutions from beneath the film during the installation of all flat glass film types.

GT063 6" Pro Squeegee Blade
Replacement blade for the 6" Pro Squeegee (GT062) used as a means of removing application solutions from beneath the film during the installation of all flat glass film types.

GT069 6" Flatfoot Squeegee Blade
Flatfoots are specially angled blades for the Pro Squeegee. The angle is designed to maximize the surface area in contact with the film, thereby removing much more mounting solution than a standard Pro blade with a square edge.

GT064 8" Pro Squeegee Deluxe
An installation squeegee as a ready-to-use assembly. Used to remove application solution from beneath the film during the installation of all flat glass film types.

GT062 6" Pro Squeegee
An installation squeegee as a ready-to-use assembly. Used to remove application solution from beneath the film during the

GT053 6" Squeegee & Channel
GT054 8" Squeegee & Channel
GT055 12" Squeegee & Channel
GT056 18" Squeegee & Channel
Stainless steel channel and soft rubber squeegee blade insert for use with the Unger Pro Handle (GT050). These are ideal for most residential/commercial window film installations. Used in the glass cleaning process and in the final cleanup after the film installation to remove soap streaks or smudges.

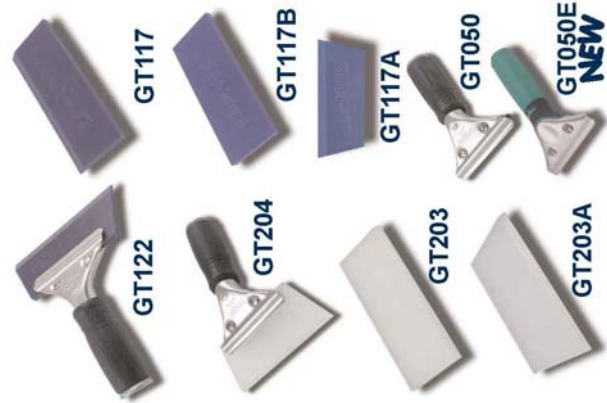

GT045 140" Squeegee Blade
GT048 12" Squeegee Blade
GT049 18" Squeegee Blade
Differing lengths of rubber blade for Pro Unger squeegee channel, used for window cleaning, not installation.

GT118 Blue Squeegee Refill (6, 8, 12, 18 or 120" roll)
Used in the GT050 Unger Pro Handle with Stainless steel channel (GT053-0536) as a finishing squeegee for maximum water removal. For use on safety, sputtered, and other "hightech" flat glass type films.

GT209 The Scrubber
This tool allows you to reach behind speakers and brake lights. Scrub away adhesive along the bottom edges of sloped rear windows. Uses replaceable standard White Scrub Pads GT085 cut 2" x 3". This tool is 3" by 15" long.

GT205 The Bulldozer
This design allows you to get to those hard to reach areas, such as behind speakers, brake lights, low angles and rear windows. This tool has a 6" squeegee blade and is 15" in overall length.

GT206 The Bulldozer II
Like its brother, this squeegee allows you to reach those tough areas and has reinforced ribs on the back side for extra rigidity and leverage. This tool has a 6" squeegee blade and is 15" in overall length. A great finishing tool.

GT122 Blue Max Squeegee with Handle
An installation squeegee as a ready-to-use assembly. Uses Blue Max auto squeegee (GT117A) and Unger Pro handle. Blue Max has pre-trimmed, angled sides for more effective squeegeeing into corners and along top edges of glass. Note the angled left and right side edges of glass.

GT117 Blue Max 5" Hand Squeegee
GT117B Square Blue Max 5" Hand Squeegee
Ideal for installing security film. For extra leverage, use a **GT050 with a GT030 Motus D Grip Handle found on page 12**

GT117A Angled Blue Max 5" Hand Squeegee
Excellent as installation squeegees in automotive and flat glass applications. Harder than GT203, these tools are superior for water evacuation. The GT117A is perfect for corners and top edges of glass. Both can be used alone or with Unger Pro Handle GT050.

GT204 Super Clear Max Squeegee with Handle
An installation squeegee as a ready-to-use assembly. Uses Clear Max squeegee (GT203A) and Unger Pro handle. Clear Max has pre-trimmed, angled sides for more effective squeegeeing into corners along top edges of glass.

GT203 Super Clear Max Squeegee Blade
GT203A Angled Super Clear Max Squeegee Blade
These replacement installation squeegee blades are used with the Unger Pro Handle. Softer version of the Blue Max Squeegee, more flexible for back window installations. Both can be used alone or with Unger Pro Handle GT050.

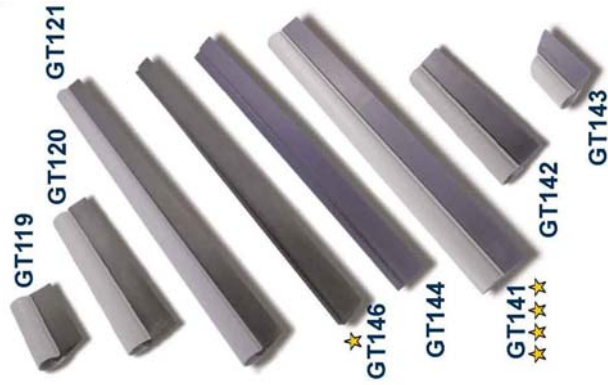

GT050 Unger Pro Handle
This rubber-coated squeegee handle works with many different squeegee blade attachments: Clear Max, Blue Max, Blue Squeegee Blade and of course the regular squeegee blade with the soft rubber insert (for glass prep) in the stainless steel channels. Essential tool for glass cleaning and for using the special higher durrometer finishing squeegee blades.

GT050E Unger ErgoTec Handle
Features a spring mechanism for quick blade changing and a finger indent on top of handle for complete control.

GT057 5" Crusher Handle
GT058 8" Crusher Handle
These handles are designed to optimize your leverage in removing mounting solution. Holds **GT257, GT258 or GT259**. The GT057 is great for high performance films and smaller residential windows, while GT058 is ideal for all residential and commercial applications.

GT257 5" Orange Crush
GT258 5" Cropped Orange Crush
GT259 8" Orange Crush
These blades help expel water from under film while keeping its strength. The 5" Cropped Orange Crush conforms to curved glass. Blades can fit into a handled grip (GT057, GT058) or be

- GT119 4" Black Smoothie Tube Squeegee**
- GT120 9" Black Smoothie Tube Squeegee**
- GT121 28" Black Smoothie Tube Squeegee**
- GT146 28" Black Smoothie Blade**

Squeegee tool used for glass cleaning, sometimes called the "Smoothie." Economy size (28") usually cut to shorter 4-5" lengths before use.

- GT144 20" Blue Turbo Replacement Blade**
- GT141 20" Blue Turbo with Handle**
- GT142 8" Blue Turbo with Handle**
- GT143 4" Blue Turbo with Handle**

The stiff blade of the Blue Turbo helps eliminate water from under film. The 4" size has an angled cut to reach into corners and small spaces. Excellent for automotive high performance films.

GT040 Slim Foot

Modeled after the Big Foot Squeegee, the slim foot has a slender design that can reach into tighter openings. The no rib squeegee helps reach behind break lights and has a vinyl grip for secure handling.

GT043 Big Foot

Designed to reach curved back glass windows. This 6" squeegee with a 12" handle allows the installer to apply the necessary pressure in those tight rear window areas. This is a must for every installer's tool box.

- GT044BLU Little Foot Blue**
- GT044RED Little Foot Red**
- GT044BLK Little Foot Black**

This squeegee measures about 6" (15 cm) along the usable edge. The pointed edge of this tool allows the installer to squeegee in very tight areas. The Little Foot has plenty of room to keep a good grip on the squeegee.

GT033 Red Devil Squeegee

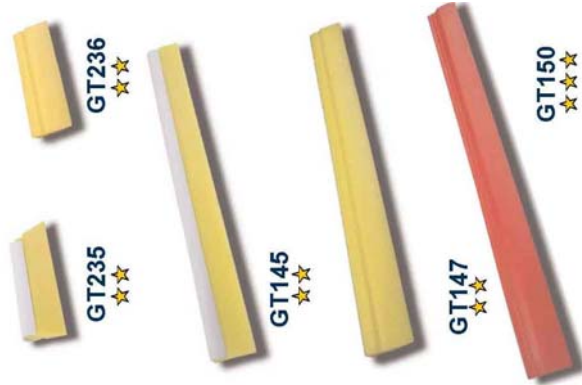

Flexible squeegee that is great for tight corners and maneuvering around gaskets.

GT091 Slammer

Used for cleaning corners and along gaskets, wicking water out along borders and easily reaches rear windows and sharp angled corners.

GT092 Shuttle

A hard card with the ability to reach into tight areas located at the bottom edge of rear window glass.

- GT235 5 1/2" Yellow Turbo Squeegee**
- GT236 5 1/2" Yellow Turbo Squeegee Blade**
- An installation squeegee used to remove application solution from beneath the film during installation of all auto films.
- GT145 18 1/2" Yellow Turbo Squeegee**
- GT147 18 1/2" Yellow Turbo Squeegee Blade**
- Economy size squeegee usually cut to shorter 4-5" lengths before use. Used for removal of application solution during the installation process.
- GT150 Red Baron Squeegee**
- Used for removal of application solution during the installation process. Also used for paint protection film installations.

GT148 Block Squeegee, Plain 6"

GT149 Block Squeegee, Plain 12"

GT202 The Conqueror

GT202B Blue Conqueror

Same as the original Conqueror GT202 with a slightly harder durometer for more squeegeeing power.

GT254 Power Stroke Blue

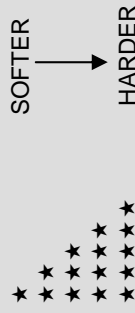

GT255 Power Stroke Red

GT256 Power Stroke Yellow

Blue has a durometer for the ultimate in moisture removal, especially for sputtered films. Red is great for final pass on metal films. Yellow works well with dyed films and first pass on metal films.

GT208 Side Swiper without blade

GT210 3" Triumph Scraper

GT103 4" Scraper with 6" Handle

The GT-103 allows for maximum leverage and speed when removing large areas of existing film.

GT104 4" Scraper with 12" Handle

Special order only.

GT212 1" Blade Ade

GT107 6" Triumph Scraper

GT106 Red Heavy Duty Scraper

GT107PC 6" Triumph Scraper with Slide Cover

This is the new and improved version of the slide covered Triumph. With a bigger button and smoother action, the cover easily opens and closes with no hassle. No more fumbling with a separate blade cover, which is safer and more convenient, especially when doing ladder work. Great for regular window cleaning, but not recommended for stripping off old film.

GT107A 6" Angled Triumph Scraper

GT109 1" Clip Scraper

GT138 Heavy Duty 1" Razor Scraper

GT110 Heavy Duty Triumph Blades.

Pack of 10

Pack of 25

GT108SS 6" Triumph Stainless Steel

Blades, Pack of 25

GT139 Plastic Razor Blades

Perfect for removing adhesive and leftover film from surfaces that can be easily damaged, such as rear window defrosters or other sensitive glass surfaces. Pack of 100 blades.

GT105 4" Scraper Blades. Pack of 10

GT211 3" Triumph Blades. Pack of 10

GT140 Single Edge Blades. Pack of 100

GT111 Auto Lock 8pt. Knife

Heavy-duty knife with breakaway points for use with security films 7 mils or greater. Cuts through security film like butter!

GT124 Plastic Utility Knife

Used for film pattern cutting and trimming.

GT027 NT Pro A-1 "Red Dot" Knife

"The Red Dot Knife," regarded by many installers as the finest professional installation knife available. Precision control of knife extension by 1/2 blade-segment increments. Knife blade locks in position, moving only when thumb-pad is depressed. Use for film pattern cutting and trimming. For right or left hand use.

GT127 Olfa "A" Knife

Used for film pattern cutting and trimming.

GT126 Olfa "Silver" Stainless Steel Knife

Use this stainless steel knife for film pattern cutting and trimming.

GT226 Olfa "Silver" 2 Auto-Lock Knife

The "Auto-Lock" SVR-2 is significantly improved over the older version of the "Olfa Silver." Now features right or left-handed use, blade position auto-lock, stainless steel channel, and one-segment click-action. We strongly recommend either this or the Pro A-1 knife below for optimum professional results.

GT026 NT Injector Cartridge Knife

Used for film pattern-cutting and trimming. Holds five blades for automatic blade replacement capabilities. GT-114 Olfa Pro-Load holds up to five blades at a time giving you 65 new cutting segments per load.

****Remember: ANY BLADE CAN CUT OR SCRATCH GLASS! It all depends on the glass, edge of the blade and the angle of the cut. No matter what knife or blade you use, be sure to use a SHARP EDGE every time!**

GT112 Olfa UltraMax 8pt Blades.

Pack of 50

Replacement blades for GT111 heavy-duty knife. They are triple-honed so that they have an extremely sharp edge. This makes these blades ideal for using to cut thick films, 7 mil and above.

GT116 Olfa Stainless Steel Snap Blades.

Pack of 50

GT115 Olfa Stainless Steel Snap Blades.

Pack of 10

Replacement blades for standard installation knives (GT026, GT027, GT124, GT127).

GT123 Olfa Carbon Snap Blades. Pack of 50

Replacement blades for standard installation knives (GT026, GT027, GT124, GT127). Note that these are not stainless steel.

GT128 Ceramic Safety Film Cutter

The Ceramic Safety Film Cutter is designed to deliver rapid, precise cuts for thick gauge safety films. It is intended for precision pre-cutting on flat, square-edged tables.

GT135 BLADEater

Designed for professional installers, the BLADEater holds your knife safely and securely, yet easy to access and you can snap blades at all times. BLADEater has a specifically designed blade well built into the holster so you can snap-off your blade.

GT134 BLADEater Replacement Well

GT960

GT960 Low-E Coating Detector

Detects the presence and location of thermal resistant coatings (LOW-E) used on energy efficient single and dual pane glass. The ETEKTs are rugged handheld instruments that are accurate, easy to use and never require calibration. Place the unit flat on the glass surface, press the button and read the results. Powered by a 9-Volt alkaline battery (included)

GT962

GT962 Heat Lamp Unit

Great tool for tabletop presentations.

GT175 Pocket Detective 2.1 Base

Used to measure visual light transmission on roll down windows.

GT175

GT174

GT174 Pocket Detective Meter

New! Measures visible light transmission and visible light reflectivity.

GT963

GT963 U.V. Light Source Lamp

Excellent Tool to demonstrate, measure or show how much U.V. window films keep out.

GT969 Toughened Glass Indicator

Powerful and important, this pocket-sized tool is used by those in the flat glass market to determine which, if any, panes in a window unit are heat-treated. Knowing this allows use of films that would otherwise be inappropriate on regular annealed glass. Full set of user instructions and leather case included.

GT973 UV Meter

Position the meter facing the UV source, such as sunlight or a heat lamp (GT962), and turn the meter on. Place various materials between the meter and the UV source and the resulting UV Transmission percentage will be displayed.

GT967 Digital BTU Meter

This wide spectrum digital meter measures solar radiant energy intensity directly transmitted through glass (or the film-glass combination) in units of BTUs per square foot per hour or watts per square foot. Effective tool showing the relative effectiveness of various films in blocking solar radiant heat. Especially useful for showing how a very dark dyed film may allow far more energy to pass through than a much lighter metallic film.

GT972 Digital Tape Measure

This compact meter uses a narrow beam to measure distances instantly, even through door openings and in crowded rooms.

NEW

GT969

GT973

GT967

GT972

GT968

GT968 Digital BTU & Trans-Meter

Use this meter to evaluate solar performance. It provides excellent resolution, reading low light conditions more accurately than competitors, with no need for adjustments. The easy to read digital display toggles between power and transmission percentage mode. It's small, portable, and convenient to take out in the field.

GT966 V.L.T. and Power Meter

The GT966 shows the performance of your film and proves to your customer that your product reduces fading by controlling visible light. It calculates visible light transmission percentages, power readings (W/m²), measures visible light spectrum (400-700 NM), and includes a digital thermometer in Centigrade and Fahrenheit. The GT966 is powered by a 9-volt battery (included) and uses an end-mount sensor to take measurements.

GT964 U.V. Meter

This meter gives UV transmission percentages, UV power, and temperature. The GT964 is the most versatile product available for measuring UV. You can measure UV intensities (irradiance), UV Transmission %, and temperature in Fahrenheit and Celsius. Unlike other UV products on the market, the GT964 is extremely simple to operate. The digital display is continually updated with real-time readings. The GT964 is powered by a 9 volt battery (included).

GT961 Insulated Glass Thickness & Gap Gauge

The "MIG" (GT961) is a durable tool used to measure glass and air space thickness in sealed insulating glass units. Laser reflections off the surfaces of glass appear on the graduated scale of the gauge. These reflections allow you to easily determine the thickness of the glass, as well as the air space separating the pieces of glass in a sealed IG assembly. The MIG is powered by two standard AAA-alkaline batteries. (included)

GT183

GT182

GT078

GT075 Yellow Film Marker
Handy for 3 basic purposes: a) marking film prior to installation of windows with unusual shapes (arches, trapezoids, etc.) which must be cut to approximate shape before the final "lay-up;" b) circling a contaminant (hair or fiber) before pulling back the film to remove it; c) marking film edges to check for glass movement on side roll-ups during the trimming process. Yellow grease mark easily wipes away.

GT076 Film Opacuer Pen - Thin Point
Used by installers to hide fine line mistakes in trimming which cause excess light intrusion at the film edge. Considered by the seasoned installer as a last minute/last resort "savior" or "cheater's pen," depending on whether he is using it or someone else.

GT077 Film Opacuer Pen - Broad Point
Used by installers to hide fine line mistakes in trimming which cause excess light intrusion at the film edge. Considered by the seasoned installer as a last minute/last resort "savior" or "cheater's pen," depending on whether he is using it or someone else.

GT031 Mokus I Grip Handle

GT132 Hook Tool

GT191 The Edge Tool

To pull back gaskets.

GT190 5-Way Trim Guide

GT130 Gasket Wizard

This device is used to carefully pull back gaskets for easy film-to-glass installations below the gasket.

Rub rails are located at the base of all automotive door window glass and are used for weatherproofing the openings between the glass and the door structure. Many installers find the Gasket Wizard helpful, even without the use of the bungee cords.

GT097

GT090 Spraymaster Trigger Sprayer

An overall heavy duty one quart sprayer, this spray bottle comes with a 5 year warranty and is chemically resistant. It is equipped with a strong trigger and holds 32 oz.

GT097 32oz. Bottle

GT098 Adjustable Spray Pump

GT096 Polyspray 2

This pressurized spray bottle holds more solution than the 32 oz. bottles and reduces "finger-fatigue," eliminating the need for pumping while spraying via a simple trigger. Handy for large windows and long-duration sprays. Has an adjustable spray nozzle.

GT098

GT096

GT101N Stainless Steel

5 Gallon Pressure Sprayer
Deluxe pressure sprayer holds up to 5 gallons of mounting solution in a stainless steel tank. Hose can reach up to 15' in length. Fill with solution and pressurize with air from any compressor. Curly, flexible hose reaches into cars or stretches to go up a ladder with you.

GT094 Replacement Nozzle for

3 Gallon Sprayer

GT102P Replacement Pump for

3 Gallon Sprayer

GT102 3 Gallon Pressure Sprayer

Stores either window cleaner or application solution. Essential for those big commercial jobs.

Long 13' hose allows great mobility and large capacity gives uninterrupted and fatigue-free installation.

Adjustable spray tip. Many installers prefer

to remove brass extension wand and attach the spray tip near the spray trigger.
